KILIMANJARO 2027 · OPTIONAL EXTENSION

Safari: *Tanzania's northern circuit*

Five days in the Serengeti, the Ngorongoro Crater and the conservation areas between — the perfect way to celebrate the summit.

COUNTRY

From the summit *to the savannah*

You've stood on the roof of Africa. Now see the wildlife that makes Tanzania extraordinary.

The northern circuit takes you through the endless plains of the **Serengeti**, down into the **Ngorongoro Crater** — a collapsed volcano that shelters one of the densest concentrations of wildlife in Africa — and across the conservation areas that protect them.

Conservation is at the heart of everything I do. This is a chance to see why it matters, with expert local driver-guides from our trusted partner, Zara Tours.

Five days, *day by day*

BEGINS THE MONDAY AFTER YOUR CLIMB

DAY	WHERE	WHAT TO EXPECT
1	Moshi → Tarangire National Park	Drive west from Moshi for an afternoon game drive among Tarangire's baobabs and big elephant herds. Overnight at a safari lodge.
2	Ngorongoro Conservation Area → Serengeti National Park	Climb through the highlands of the Ngorongoro Conservation Area and descend onto the Serengeti plains, game viewing on the way to camp.
3	Serengeti National Park	A full day of game drives across the Serengeti, in search of lion, leopard, cheetah, elephant and the great herds.
4	Serengeti → Ngorongoro Crater rim	A final morning in the Serengeti, then back to the highlands for a night on the rim of the crater.
5	Ngorongoro Crater → Arusha / Kilimanjaro Airport	Descend 600m to the crater floor for an early game drive, then return for your flight home.

Itinerary based on Zara Tours' northern circuit safaris. Final routing, lodges and camps are confirmed at booking and may vary with season and availability.
